

Applied Technology, Inc. SeaPort-e Team

<i>Company</i>	<i>Capabilities</i>	<i>Business Size</i>
Advanced Vision Systems, Inc.	Prototyping, system engineering, design, and documentation.	Small, Women Owned
AEgis Technologies Group, Inc.	High energy laser, sensors and instrumentation; modeling and simulation laser propagation codes; coatings for laser eye and optical sensor protection.	Small
Alion Science & Technology	Multi-disciplinary business, including defense operations and machine architecture and engineering.	Large
American Systems Corporation	System design, modeling, fabrication, and documentation.	Large
AR Systems Inc.	Electronic design and fabrication.	Small
Augur Consulting, Inc.	Specialists in cost and schedule analysis.	Small, Veteran Owned
AVW Technologies Inc.	Specialists in non-lethal weapons assessments.	Small
C5M, LLC	Specialists in electronic warfare and direct energy.	Small
Camber Corporation (CC)	Specialists in CBRNE and weapons of mass destruction advisory and assistance services.	Large
Cardinal Scientific, Inc. (CSI)	Specialists in mechanical design, engineering, and fabrication.	Small
Computer Sciences Corporation Inc.	Specialists in laser systems design and development.	Large
CSA Engineering Inc.	Specialists in electro-optical system vibration analysis.	Large
CYTIot Inc.	Specialists in computing protocols and sensors.	Small
DfR Solutions	Planning, analysis, and consultation in the areas of reliability, maintainability, availability, risk assessment, and mission success for high reliability customers.	Small
Directed Energy Technologies, Inc.	Custom high intensity systems and diagnostics, target interactions, vulnerability analysis, test planning and execution.	Small
Dynetics	Specializes in the design, development, and testing of electronic warfare techniques and equipment.	Large

<i>Company</i>	<i>Capabilities</i>	<i>Business Size</i>
Eagle Systems, Inc. (ESI)	Engineering, technical, logistics, and administrative services in support of a wide variety of U.S. Navy weapon system programs, including laboratory and test facility operations, and RDT&E, logistics, systems engineering, aviation maintenance, and administrative support services.	Large, Woman Owned
Electronics Service, Inc. (ESI)	Specialists in electronics design and fabrication and directed energy engineering.	Small, Veteran Owned
EMC Management Concepts	Specialists in electromagnetic compatibility.	Small
ENS Designs, Inc.	Specialists in electronic design/fabrication and directed energy engineering.	Small
Enterprise Sciences, Inc.	Specialists in ultra-short pulse laser studies and laser-induce effects on materials.	Small
Envisioneering	Systems engineering support for technology assessments and recommendations, laser systems, surveillance sensors, weapons systems, data acquisition and processing systems, test and evaluation systems, and special monitoring systems.	Small
Equinox Corporation	Specialists in aimpoint maintenance technology.	Small
Galecki Design Services LLC	Specialists in electronic design/fabrication and directed energy engineering.	Small
Harsh Environment Applied Technology, Inc. (HEAT)	Specialists in night vision goggles and gimbaled multi-sensor platforms.	Small, Woman Owned
Hepburn and Sons	Specialists in marine systems engineering.	Small, Veteran Owned
Kentco (ProteQ)	Logistics management and transportation support services.	Small
Key Analytical Solutions, LLC	Specialists in systems engineering, systems analysis, test and evaluation, and operational requirements.	Small
L-3 Communication Corp., Brashear Division	Leader in electro-optical pointing and tracking systems.	Large
MacAuley-Brown Inc. (MacB)	Information warfare, electronic combat systems, C4I systems, threat exploitation, information technology solutions, information assurance, defense logistics and acquisition management, and logistics support throughout DoD.	Large, Woman Owned
Millennium Engineering and Integration (MEI)	Systems engineering, test and assessment, logistics, OCONUS support.	Large

<i>Company</i>	<i>Capabilities</i>	<i>Business Size</i>
MZA and Associates	Leader in modeling, analysis and development of directed energy and imaging systems.	Small
Oceaneering International, Inc. (OII)	Remotely operated vehicles, built-to-order specialty hardware, engineering and project management, subsea intervention and installation services, non-destructive testing and inspections, and manned diving.	Large
Parsons Government Services, Inc.	Specialists in electro-optical systems design and development.	Large
Pennsylvania State University, d/b/a Penn State	Specialists in laser system design, development, test and evaluation.	Large
Potomac Institute for Policy Studies	Specialists in public policy research.	Large
Power Systems & Controls	Specialists in power conditioning equipment.	Small
protoCad Corporation	Specialists in mechanical design and fabrication.	Small
PTSI Managed Services, Inc.		Large
Resource Management Concepts	Technical capabilities to include: corporate operations, environmental and safety, information technology, information assurance, security and mission assurance, and military range management and range sustainability.	Small
Sabtech Industries, Inc.	Military communication products and services including radar, sonar, navigation, data links, weapons systems, training, and simulator systems.	Small
Schafer Corporation	Multi-disciplinary large business, including specialists in directed energy technologies.	Large
Sentel Corporation	Specializes in hardware and software engineering in data acquisition, sensor and subsystem communications.	Large
Serco Corporation	Specialists in laser predictive avoidance.	Large
Sonalysts	Advanced training systems and information technologies, human systems integration and performance assessment, platform and combat systems modeling and simulation, submarine and surface ship systems engineering.	Large
Southwest Research Institute	Specialists in electro-optical sensor design.	Large

<i>Company</i>	<i>Capabilities</i>	<i>Business Size</i>
Stellar Science Ltd. Co.	Specialists in high power microwave technologies.	Small
Strategic Analysis, Inc.	CBRNE; physical, biological, information, and social sciences; biotechnology, embedded, and autonomous systems; microelectronic processing.	Large
Systems Planning and Analysis, Inc.	Multi-functional operational modeling and simulation software, force structure analysis, warfare assessments, systems engineering, data base development, and business process re-engineering.	Large
TechFlow Scientific, Inc.	Specialists in high power microwave technologies.	Small
Technology Management Group	Specialists in Model-Based Systems Engineering.	Small, Veteran Owned
Teknicare, Inc.	Specialists in high energy laser system design and development.	Small
TimeLike Systems	Specialists in electro-optical/laser modeling and simulation.	Small
Unconventional Concepts, Inc.	Maritime security; terrorism; full spectrum preparedness; training and development; technology development/assessment/integration/insertion.	Small
URS Federal Technical Services, Inc.	Specialists in electromagnetic test and evaluation.	Large
Veterans International, Inc.	Specialists in information technology.	Small, Service-Disabled Veteran Owned
Vision Engineering Solutions, LLC	Specialists in laser systems design and development.	Small
Voss Scientific	Specialists in high power microwave technologies.	Small
Zekiah Technologies, Inc.	Specialists in geospatial modeling, databases, and scalable application architecture and design.	Small, Women Owned
